ÅF contributes to the sustainable development of industry and society as a whole. More than 100 years' experience in the business has taught us to raise our sights.

Our collective experience places ÅF firmly in the front rank of technological progress. Even so, the solution ÅF delivers is not necessarily the most technically sophisticated – but it's always the best! ÅF never experiments with its clients or their businesses, especially when their interests are best served by tried and tested technology.

Our total independence from suppliers and other partners is every client's guarantee of an optimum solution.

That's why ÅF creates solutions that are profitable, safe and sustainable for its clients.
